PICKING UP NUGGETS

Heavy Washes: Rain Washes Up Gold For Oliver McGee, Catawba Farmer.

Newton, N. C.—Oliver McGee, a farmer living on the old "Bony" England place east of Newton which was once sold for a gold mine, probably wouldn't object to another terrific rain as fell all over this section Thursday night, for ever since he has been picking up small nuggets of gold in his patches, yellow lumps washed out by the heavy rainfall. He has quite a collection of them and they look very good. The England place has from time to time yielded some gold, though not in quantities expected when the place was sold for a gold mine several years ago.

"And when you eloped with the girl," asked a friend, "did her father follow you?"

"Did he?" said the young man. "Rather! He's living with us yet."—London Opinion.
